

## ISCI 330b Wildlife-Habitat Connections. **Group Research Paper**

Names of members of the group:

Assignment criteria are in the boxes. I have **noted in red** the appropriate words and phrases to describe your work.

Shine a light, on a particular aspect of your choosing, on connections between wildlife and its habitat. Make relevant connections to the bigger picture, such as to current events and issues, local or global. Include how your findings do or might connect to local (Vancouver, southern BC, or nearby) issues.

Paper is well-explained and focused, relevant to wildlife-habitat connections.

Relevant connections to bigger picture such as to current events and issues, local or global (at least one of these)

Include how your findings do or might connect to local (Vancouver, southern BC, or nearby) issues.

Support your explanations and connections by synthesizing and citing material from at least one of each of three kinds of sources: a) scholarly literature (especially primary research in refereed journals); b) other reference works (such as books, reports and encyclopaedias); and c) popular media (such as newspapers and magazines)

Variety of sources used, up-to-date, relevant material    You have missed one / two kinds of sources.

Material is synthesized very well / good in places/ not very well.    Avoid reliance on a single source.

Some / many statements in the text lack reference and need it. You have / have not cited author and year within the text (+ page number for a quote), using style requested.

You have / have not composed the References Cited section using the style requested.

You have / have not included all material in the References Cited section that you cite directly in the text.    You have missed the following tips from 'More Tips on Research and Referencing': 1 2 3 4 5 6 7. You have missed key aspects of the assignment. Re-read the criteria, then see me for help.

Descriptive title, spacing, font, margins, length, numbered pages, proofreading

Evidence that members of this group responded to feedback given on individual synopsis and research papers:
